LET'S GO

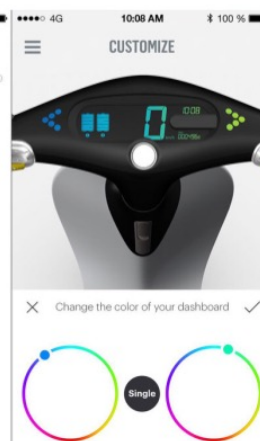

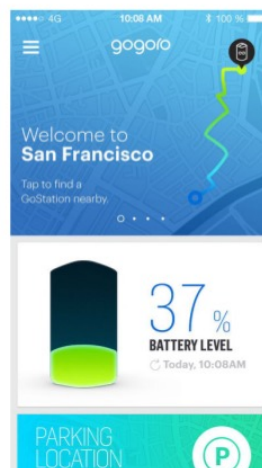

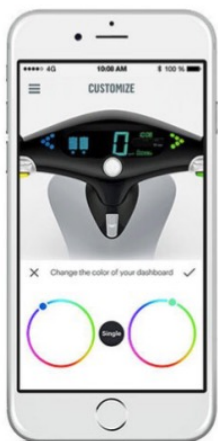

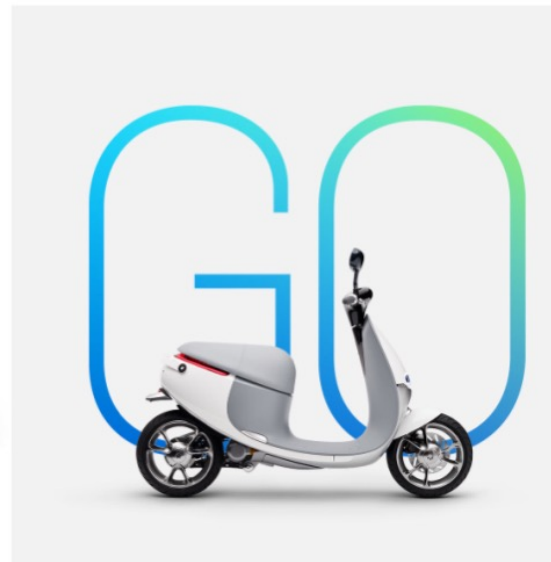

gogoro

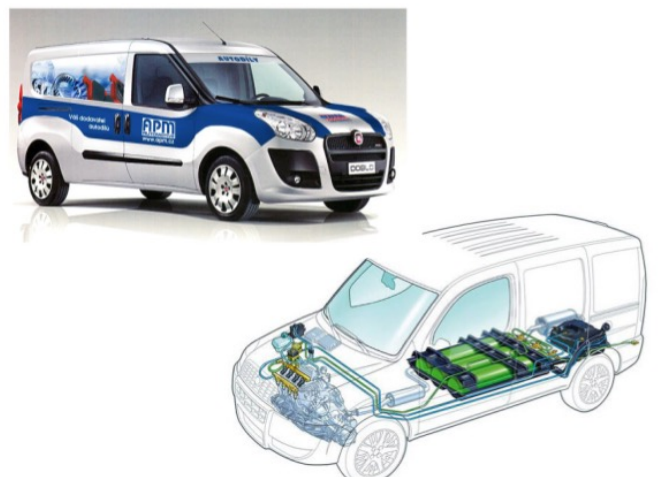

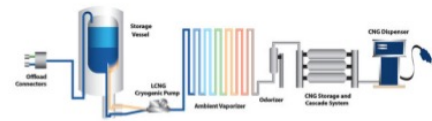

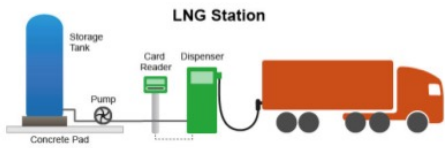

Power Packed

Gogoro® batteries are an engineering marvel. Super efficient. Endlessly smart. Unbelievably tough. They'll power you all the way up to 95 KM/H top speed while capturing live data from over 25 onboard sensors. All the power you need while relaying critical data to the network to help optimize performance and access services and support instantly.

Europe - forecast

Can we forecast 100 000 in 2020?
Target of European Commission:
20% fuel consumption – alternative fuels (10% natural gas)
if 1% on LNG = 43 billion Sm³/year
(equals to the capacity of the Transit pipeline
Russia – Ukraine – Germany)
